QIFAN ZHANG

3435 Engineering Hall, Irvine, CA, USA, 92697
Email: qifanz.uci@gmail.com; Tel: +1-(949)-533-5330

EDUCATION

University of California, Irvine *Sept 2020 - Jul 2025 (expected)*
Ph.D. Student in Computer Engineering
Advisor: Prof. Zhou Li
Department of EECS, the Henry Samueli School of Engineering

ShanghaiTech University *Aug 2016 - Jul 2020*
B.E. in Computer Science and Technology
Minor in Innovation and Entrepreneurship

RESEARCH INTERESTS

Domain Name System (DNS). I'm interested in security, privacy and reliability of DNS. My past research covered protocol security [Security'23][NDSS'23], and automated vulnerability detection with fuzzing techniques. I have also surveyed DNS operational issues by mining, labelling and classifying main-stream public DNS forums [IEEE Access'22].

Machine Learning for Security. I'm also interested in solving security and privacy issues via machine-learning based methods. Recently, my research demonstrates model extraction on Autonomous Vehicle using Gradient-Descent based methods [ACSAC'22].

PUBLICATIONS

Conference Papers

· **Qifan Zhang**, Junjie Shen, Zhe Zhou, Zhou Li, Haipeng Zhang. *Play the Imitation Game: Model Extraction Attack against Autonomous Driving Localization.* Accepted by The 38th Annual Computer Security Applications Conference (**ACSAC**), 2022.

- Achieve cm-level precision with 40-second driving data.
- ***Skills involved:*** *model establishment and training on PyTorch, Optimization, Baidu Apollo, Autonomous Driving controller algorithms.*

· Xiang Li, Chaoyi Lu, Baojun Liu, **Qifan Zhang**, Zhou Li, Haixin Duan and Qi Li. *The Maginot Line: Attacking the Boundary of DNS Caching Protection.* Accepted by the 32nd USENIX Security Symposium (**Security**), 2023.

- **Vulnerability acknowledged** by CVE-2021-25220 (BIND 9), CVE-2021-43105 (Technitium), CVE-2022-32983 (Knot Resolver).
- Awarded $1,000 by Microsoft Security Response Center.
- ***Skills involved:*** *Network environment settings on Virtual Machine, debugging via GDB and CLion, Python Scapy, Code analysis on DNS software.*

· Xiang Li, Baojun Liu, Xuesong Bai, Mingming Zhang, **Qifan Zhang**, Zhou Li, Haixin Duan and Qi Li. *Ghost Domain Reloaded: Vulnerable Links in Domain Name Delegation and Revocation.* Accepted by the 30th Annual Network and Distributed System Security Symposium (**NDSS**), 2023.

- **Vulnerability acknowledged** by CVE-2022-30250, CVE-2022-30251 (Knot Resolver), CVE-2022-30252 (PowerDNS Recursor), CVE-2022-30254 (Simple DNS Plus), CVE-2022-30256 (MaraDNS), CVE-2022-30257, CVE-2022-30258 (Technitium), CVE-2022-30698, CVE-2022-30699 (Unbound)

- ***Skills involved:*** *Network scanning and measurement, Network environment settings on Docker, Python Scapy, Code analysis on DNS software.*

Journal Papers

· Xiaoran Liao, Jiacen Xu, **Qifan Zhang**, Zhou Li. *A Comprehensive Study of DNS Operational Issues by Mining DNS Forums.* Accepted by IEEE Access, 2022.

- ***Skills involved:*** *Data mining on DNS forums, DNS ticket labelling and classification.*

PROJECTS

Find DNS Vulnerabilities via Fuzzing *May 2022 - Feb 2023*

In this project, we first summarized *Common Vulnerabilities and Exposures* (CVEs) of popular DNS software, such as BIND 9, Unbound, PowerDNS, Knot, Microsoft DNS, etc. Then, we implement a DNS fuzzer using *Context-Free Grammar* (CFG) and byte-level mutation. With the help of the DNS fuzzer, we successfully replicate some of the reported vulnerabilities in CVEs. We also found new vulnerabilities, such as *MaginotDNS* (published in USENIX Security 2023). This project is now submitted and under review.

Skills involved: *CVE reading and summary, Grammar-based fuzzing, Network environment settings on Docker, Python Scapy, Code analysis on DNS software, Cloudflare API, concurrent programming.*

Cardiac Ablation Aiding System *Dec 2018 - Sept 2019*

Instructor*: Prof. Zhihao Jiang (ShanghaiTech University, Shanghai, China)*

This project aims at extracting features of different kinds of cardiac arrhythmias, especially tachycardias and proposed a way that transfers electric signs into a graph to determine possible tachycardias. It will also instruct doctors which place of heart to be detected next, which could be used to aid doctors in cardiac ablation operation. The final model is stimulated on Matlab and Stimulink.

Skills involved: *Matlab/Stimulink, unit test, code coverage, software validation.*

Line-Based 3D Panorama *May 2019 - Jun 2019*

Build a 3D panorama with LSD, line merging and line tracking. We use feature matching, seven-point algorithm and scale propagation to calculate relative pose estimation.

Skills involved: *OpenCV, line merging, pose calculation, bundle adjustment.*

SERVICES

External Reviewers

· NDSS: 2023, 2022, 2021
· AsiaCCS: 2022, 2021

TECHNICAL SKILLS

Programming Language	Python, Java, C/C++, Rust
Software & Tools	Matlab/Simulink, VMware Workstation Player, Docker, Cloudflare API, OpenCV, CLion, GDB

TEACHING

Teaching Assistant University of California, Irvine

· EECS 40 (F22): Objected Oriented Systen and Programming (#students: 95)

Teaching Assistant Pennsylvania State University

Penn State First program, cooperated with CIEE Shanghai

· MATH 110 (F20): Techniques of Calculus I (Section 5-7) (#students: 57)

Teaching Assistant ShanghaiTech University

- SI 100C (F17): Introduction to Computer Science and Technology (#students: 127)
- CS 100 (F18): Programming (#students: 243)
- CS 277 (F19): Introduction to Data Science and FinTech (#students: 23)
- (core TA) SI 100B (S18, S19, S20): Introduction to Information Science and Technology (#students: 203/174/410)

STUDENTS ADVISED

University of California, Irvine
Graduate Student Advisor

- Shenghan Zheng (B.E. at ShanghaiTech University), UCInspire program, 2022.
- Wenhao Zhang (B.S. at SUSTech), UCInspire program, 2021. now a Ph.D. student at Northwestern University.
- Xiaoran Liao (B.S. at UC Irvine), 2021.

HONORS

University of California, Irvine

- Associated Graduate Students Conference Stipend (Winter 2022)
- 2022 ACSAC Student Conferenceship
- Student travel grant for NDSS (2021)
- Student travel grant for USENIX Security (2021)
- Student travel grant for IEEE Symposium on Security and Privacy (2021)
- Henry Samueli Endowed Fellowship (2020-2021)

ShanghaiTech University

- 2020 ShanghaiTech Outstanding Graduate
- SIST Outstanding Teaching Assistant (2020, 2019, 2018)
- Merit Student (2018-2019, 2017-2018, 2016-2017)
- Outstanding Personnel in 2017 Summer Camp
